

As a proud member of Joint Medical Holdings, RIBUMED Day Hospital is a state-of-the-art, same-day healthcare facility, and the first of its kind in the City of Durban. This affordable establishment is built on one simple principle:

"Healthcare is for everyone."

Why Day Hospitals ?

- Advancements in medical technology, ensure more procedures are now able to be safely carried out in day hospital facilities.
- The patient experience is more relaxed and less stressful as their treatments are focused and efficient.
- The shorter procedures lower the risk of infection and create cost effectiveness, thereby providing further comfort and peace of mind to each and every patient.
- Our facility has been carefully considered and designed to maximise medical team efficiency, while at the same time providing patients with a welcoming, modern and contemporary experience.
