

Infectious Disease Ward

City Hospital Maxwell Infectious Disease Ward is a value added service to the health care sector. This specially designed, custom built facility for airborne diseases is the first of its kind in the KwaZulu-Natal private health sector. The Maxwell Infectious Disease Ward comprises 14 beds and is used exclusively for Pulmonary Tuberculosis (PTB) Isolation.

Dialysis

Ultra Kidney Care provides high-quality dialysis services by skilled and experienced professionals who have a genuine compassion for their patients. The unit has the latest technology and can facilitate up to 12 treatment stations. Services offered include Acute and Chronic haemodialysis CVVD, CVVHDF, CVVHD, Therapeutic plasma exchange, SLED acute and chronic HDS. Our patients are cared for by some of the leading nephrologists in the Durban area.

City Hospital is a Private Healthcare Facility located in the heart of Durban Central offering quality cost effective service, which is run by a dedicated and committed team of healthcare professionals.

Among our many specialised units we provide a 24 hours service in our Casualty Department and have trained staff on the premises to handle emergency cases. The other various specialised units that we offer are as follows:-

Cardiac, Medical & Surgical Intensive Care Unit

Our modern Cardiac, Medical & Surgical ICU's caters for general, cardiac, medical, surgical, renal, thoracic & gynaecological surgery with critical care trained staff to respond to any situation.

Cardiac Cath Lab

In August 2016, City Hospital was proud to launch the first Catheterization Laboratory within the JMH Group which is situated on the 5th floor new wing. The entire floor has been dedicated to cardiac care with the latest technology in the Cath lab and a fully equipped Coronary Care and Intensive Care Units. The Cardiologists utilising the lab are well renowned in the Durban area and are assisted by a highly qualified team of nurses and cardiovascular technicians.

Theatre

City Hospital offers 7 licensed operating theatres, including a fully operational Cardiac Theatre and 2 more lamina flow theatres for major & minor surgery under general, spinal & local anaesthesia. We pride ourselves in offering quality, efficient service delivery & in saying so also offer general, neurology, orthopaedic, gynaecology, ears, nose & throat surgery, dental, plastic, urology, ophthalmic surgery, vascular & cardio thoracic surgery with specialised fertility procedures. Our well trained and experienced Specialists and Staff use the latest equipment with 24 hour theatre coverage, having a call team overseeing the night for emergencies.

Maternity Unit

Our Obstetric & Gynaecology Department has been providing a service to women for many years. The unit's many services range from Gynaecological, Pre-Conception, Antenatal, Delivery, Post Delivery, and during child bearing years & beyond. Our main area of practice is delivery & our main objective is to ensure that birth is a natural, memorable & pleasant experience for all patients.
