

Paediatrics Unit

Offers a service for children up to the age of 12 with dedicated paediatrics health services across a wide range of specialist areas & care for young patients with conditions including: asthma, diabetes, epilepsy, emergency care, infectious diseases, tuberculosis, injuries & neonatal jaundice. Our unit is child & mother friendly providing sleeping facilities & breakfast for moms while they are looking after their admitted children.

Adult Ward

The newly developed Adult Ward situated on the 4th floor opened its doors to the 1st patient on the 11th November 2016. The ward accommodates 28 patients which includes 3 semi-private wards & 2 isolation units. The isolation units are designed with a ventilation system that generates negative pressure to allow air to flow into the isolation room but not escape, thereby preventing contaminated air from escaping, ideal for infection prevention. The unit boasts spacious cubicles with the latest range of equipment accommodates all types of medical & orthopaedic conditions.

Durdoc Hospital is an integral part of the JMH Group of Private Hospitals. Ideally located in the heart of Durban Central, this facility is serviced by a dynamic and diverse cluster of specialists. The differentiation that makes this healthcare facility unique lies in the partnership philosophy between its people, its providers, its patients. The fundamental objective of this approach is to create a supreme patient experience. Durdoc Hospital is undergoing major renovations and upgrades.

Medical & Surgical Intensive Care Unit

Our Medical & Surgical ICU's cater for general, medical, surgical, renal, thoracic & gynaecological surgery with critical care trained staff to respond to any situation.

Surgical Ward

Surgical Ward is a multi-disciplinary unit offering skilled services to all our patients. Using the latest in wound care technology we are able to manage major wounds with positive outcomes. Our staff is dedicated to making patients pre & post operative experiences as comfortable as possible ensuring a speedy & healthy recovery. Patients are guided with discharge advice to maintain a healthy lifestyle after discharge.

Theatre

Durdoc Hospital offers 5 licensed operating theatres for major & minor surgery under general, spinal & local anaesthesia. We pride ourselves in offering quality, efficient service delivery & in saying so also offer general, orthopaedic, gynaecology, ears, nose & throat surgery, dental, plastic, urology, ophthalmic surgery, vascular & cardio thoracic surgery with specialized fertility procedures. We have a fully equipped gastroscopy & colonoscopy room with trained staff using the latest LED Olympus camera stack with 24 hour theatre coverage, having a call team overseeing the night for emergencies.

Maternity Unit

Our Obstetric & Gynaecology Department is the latest addition to JMH's existing Obstetric Units & has been providing a service to women since July 2013. The units many services range from Gynaecological, Pre-Conception, Antenatal, Delivery, Post Delivery, and during child bearing years & beyond. Our main area of practice is delivery & our main objective is to ensure that birth is a natural, memorable & pleasant experience for all patients.

Nursery & Neo-Natal ICU

This unit comprises of a 4 bedded intensive care & accommodates nursery babies. The nursery offers nursing care by Neonatal skilled staff ensuring that any complications in new born is detected early. We provide intensive care, including ventilation of the new born and offer a baby friendly environment by promoting Rooming in & Breastfeeding as well as a facility for fathers.
