Isipingo Hospital is a member of Joint Medical Holdings, an independent black owned hospital group, operating more than 5 acute care facilities across the KwaZulu-Natal Region. JMH is recognised for its quality nursing, high calibre of healthcare professionals and excellent facilities. We believe delivery of world class healthcare is achieved through a combination of unparalleled quality and clinical excellence; along with a true focus on the personal needs of our patients and their families.

At Isipingo Hospital our priority is to focus on the delivery of a special brand of health and care to patients. Within a world class hospital, this unique approach is what makes the difference and helps us to maintain our position as one of the top hospitals in the country.

In striving to improve the patient experience at the Hospital, the Hospital has recently developed additional under cover parking for patients and visitors situated within the Hospital.

Isipingo Hospital has a total of 177 acute beds. A brand new, state-of-the-art renal unit has recently been opened at the hospital. The 8-station facility provides haemodialysis treatment for patients with chronic renal failure, in a hospital setting.

The unit is proud to offer:

- State-of-the-art renal hemodialysis equipment
- One full-time nephrologist (specialist in renal medicine)
- A qualified team of registered and experienced renal specialised nurses and renal technologists
- Immediate and accessible emergency medical care
- A 10 bed intensive care unit, for patients recovering from cardiac, orthopaedic and general surgery
- A radiology facility, with a comprehensive range of sophisticated diagnostic equipment. This facility includes a CT scanner.
- Orthopaedic digital theatre
- Hospital is well serviced by the leading Pathology Labs in the industry.
